TechNet Script

Opening

CQ CQ its time for the TechNet! Its 7pm.

I'm <u>your call sign</u> and I go by <u>your name</u>. I will be net control for this evening. The TechNet is sponsored by the 285 TechConnect Radio Club. It's not a club net; it's a net for all amateurs of all levels. Feel free to break-in with questions or comments at any time by saying: "question" or "comment".

Remember: We do not have the repeater in the net mode so if you have comments; please recognize the 3 min timer is active and reset if you need to.

If at any time the net needs to be suspended for an emergency or other important use: say "break" and we will suspended until the situation is over. On some nets we may have an Echolink or IRLP Participant. Don't become distracted if you hear it connect.

This is an open discussion net: This means that YOU, have the opportunity to ask any ham related questions. We will be asking those of you who are out there tonight not only to ask questions, but to offer your answers, comments, or insights too. After all, open discussion means open for all types of comments.

If you have any ham-related questions or comments, please call now …

Closing:

We want to thank all the participants in the net this evening.

If there are any questions you want to have discussed on the Technet or questions about the club, Please feel free to e-mail the TechNet Coordinator, Robb – KC0ZGK. You can find his e-mail address at the club web site <u>WWW.NA0TC.ORG</u>.

Again we thank the Colorado Repeater Association for the use of their repeaters this evening.

This is *name, call-sign*, net control, closing the TechNet for this week. Thanks for stopping by. We hope to see you next week. 73 and out.
